

Re: Music Festival

To Whom it May Concern,

Please excuse _____ on _____ to compete in our music festival.

The music students will be adjudicated by either Jane Hayes or Marguerite Witvoet. They are both well known Canadian musicians and educators.

The festival is a wonderful trio of performance, competition, and workshop format. It is organized by a committee of local music educators in the lower mainland.

Music Festivals play an important role in the development of students not only musically but also in their general development. They gain confidence and are able to explore their creativity. It is the first year since covid that we are able to be do this event in person. We are excited to see the students in person this year at our new location in Delta BC.

Sincerely,

The Festival Committee
